# **Bespoke Liquidity**

for Professional and Institutional Clients

# About Match-Prime

## Who we are

We are a CySEC-regulated Liquidity Provider that works exclusively with professional clients and institutions. Our bespoke offer for Forex & other CFDs Brokers combines deep, multi-asset liquidity for over 2000 instruments with ultra-fast connectivity. We deliver tailor-made solutions to help our clients meet their business goals.

## Technology

Our liquidity solution is part of the ecosystem built around Match-Trader platform, developed by Match-Trade Technologies, one of the leading technology providers and our strategic partner. It is already integrated with the most popular trading platforms and distribution systems, making it easily accessible for most Brokers.

## Values

Match-Prime was founded with the aim to provide our customers with comprehensive solutions and security. We understand that every business needs an individual approach, that's why we focus on direct contact with our clients, regardless of their size. For each client, we prepare an individual offer tailored to their needs.

## Our Awards

# Our Management Team

Our team consists of specialists with many years of experience in the financial industry. We understand the challenges our clients face and know how to help them reach their full potential.

**Andreas Kapsos**

Chief Executive Officer

**Stavros Economides**

Chief Operating Officer

## Trusted us

We are the liquidity provider of choice for market leaders and the fastest growing businesses.

# The Advantages We Offer to Our Clients

---

## Trusted partner

**We are authorised and regulated** by the Cyprus Securities and Exchange Commission (CySEC), under License Number 390/20

---

## In-house Technology

Our Institutional liquidity platform relies on a **ultra-fast matching engine** developed by the team of industry-valued experts

---

## Competitive pricing

**Simple offer, a minimum monthly** fee starting from \$1000, spreads as low as 0.1 and **bespoke conditions** for each client

---

## Low spreads and best execution

Our matching engine **ensures no re-quotes** and fills the orders at best available price

---

## Low latency connectivity

We host all of our servers close to our liquidity sources to minimise slippage and **provide one of the fastest execution**

---

## Negative Balance Protection

**We ensure a safeguard** to prevent our clients from incurring debts beyond their initial investment

---

## Large volume order execution

Our robust liquidity platform guarantees high efficiency and **allows brokers to send high-volume trades or large order sizes**

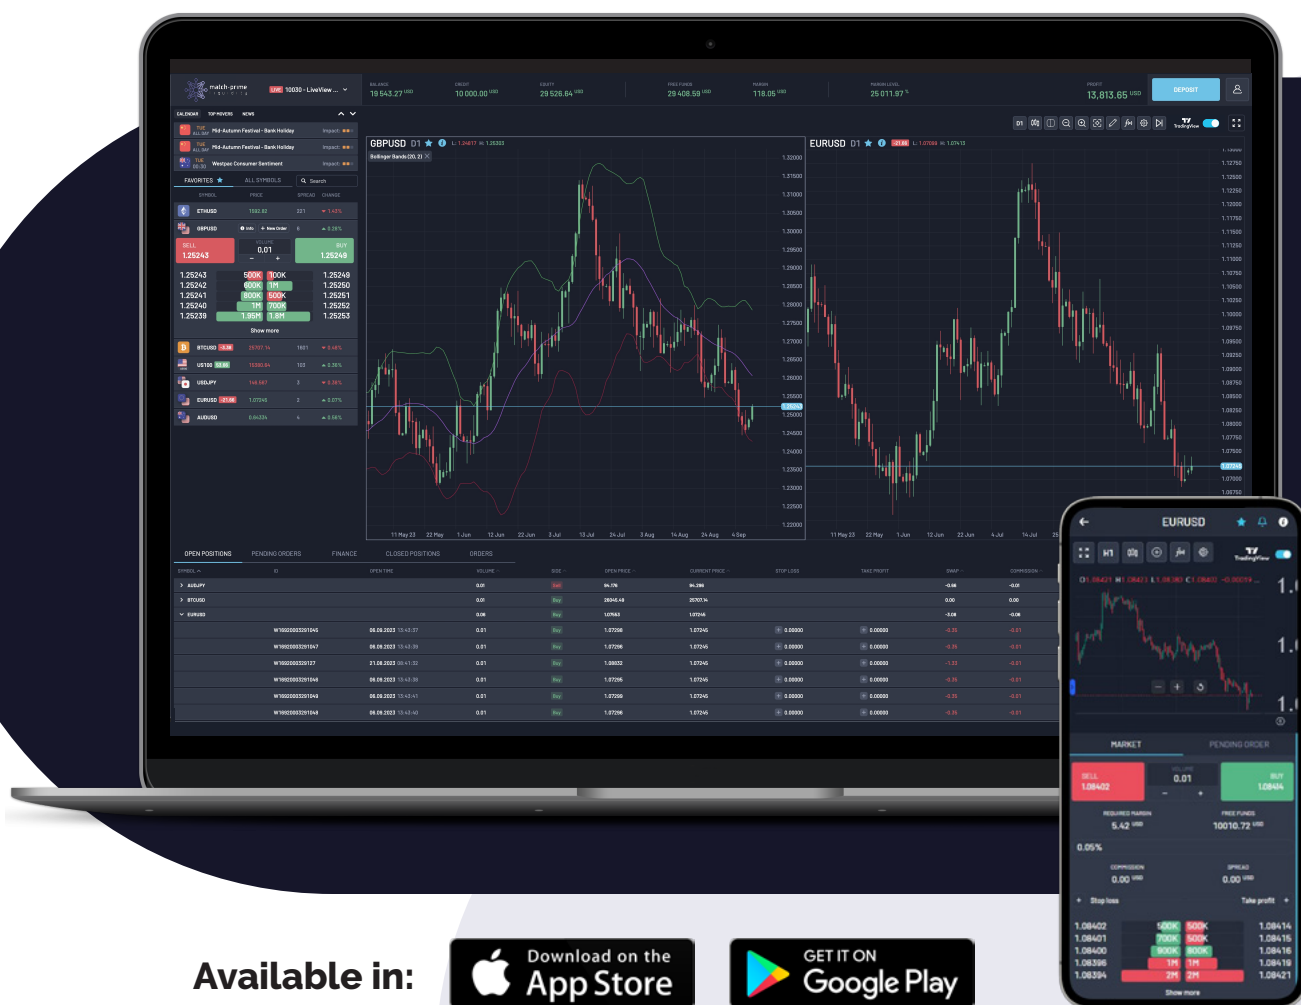

---

## Custom symbols

Proven technology allows for flexibility in both **adding individual symbols** and the ability to adjust their settings

# Our Institutional Liquidity Platform

Available in:

**Match-Trader Pro is the new generation system offering a transparent, distributed and independent ECN Forex market.**

Our institutional liquidity platform has a wide range of functionalities to actively manage a liquidity account, such as Market Depth presentation, daily reports, FIX connectivity, click and trade buttons, market watch and full view of account summary. New functionalities are constantly being added to even better support our clients in developing their business.

Match-Trader Pro has been built using Progressive Web App Technology, which makes it very light and easily accessible from all internet-connected devices, ensuring a smooth user experience. Use it to conveniently check real-time quotes, market event calendars, top movers and news, and gain instant access to the account measures like P/L, Balance, Equity, Free Margin, or Margin Level.

# Match-Trader Pro

## New Generation Platform

# Complete business solutions for Forex Brokers

All our clients can take advantage of the custom package of Match-Prime Liquidity combined with a modern trading platform offered by Match-Trade Technologies, our strategic partner. This solutions bundle was created to provide smooth set-up and cost optimisation for clients who want to start their Forex Broker.

**The award-winning Match-Trader trading platform is offered in a custom package with our Liquidity in two models:**

- Match-Trader White Label (turnkey solution)
- Match-Trader Server Licence (standalone server)

**Elective features available in our custom White Label and Liquidity package:**

## Bridge with Risk Management System

Our solution is integrated with multiple bridge engines, allowing you to aggregate price streams and manage hedge settings in real time for your convenience.

## Client Office with CRM & Analytics

The Client Office & Forex CRM can help optimize the entire sales and onboarding process. Branded app for traders and IBs is included.

## Variety of APIs

The APIs we provide allow our clients to easily integrate every application available on the market to create a complete trading ecosystem based on their current setup.

## FIX API

Get access to price data and low-latency trade execution to improve your transaction flow.

## Reports

We offer various reports that will make your work easier and less time-consuming.

# Tools We Offer

We offer a full suite of tools to provide the best performance of your forex business:

---

## **Risk and routing engine**

Connect various sources of liquidity via FIX protocol and change hedging parameters when needed. Switch on and off particular liquidity providers, add markups and more.

---

## **Open order book**

Our ECN matching engine provides top execution speed and lowest possible latency. Each order is matched with the best liquidity available on the forex market.

---

## **Back-office with API**

Use our back-office to manage the whole system, access reports and account information, or integrate your own back-office through our API.

---

## **FIX API and MT4/MT5 Bridge**

For algorithmic trading or connecting your own trading systems to Match-Prime's liquidity pool use seamless access via our FIX API or benefit from our in-house MT4/MT5 bridge.
